TELEINVEST

PREDATOR MOBILE

Your trading platform. In your pocket.

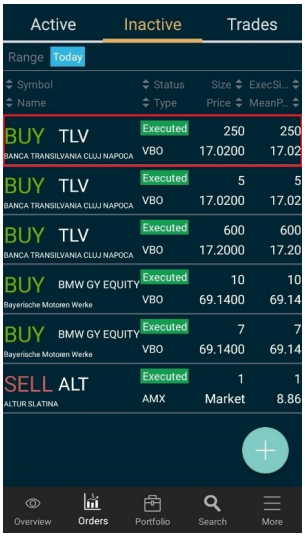

Extend the PREDATOR trading experience to iOS and Android. Give online clients convenient access to market information, trading workflows and their portfolios—through a mobile interface connected to the PREDATOR platform.

MARKET OVERVIEW

PRICE CHARTS

ORDER ACTIVITY

The market at a glance

Follow selected instruments with predefined, automatically generated or user-defined watchlists. Move from bid/ask quotes to market depth, price information and interactive line or candlestick charts with selectable periods.

TRADE WHERE YOU ARE

Place buy and sell orders; review active, inactive and executed orders; modify or cancel eligible orders.

SEE MORE THAN PRICES

Explore instrument details, market depth, charts, indices, BVB Top 10 statistics and ticker activity.

FOLLOW YOUR POSITIONS

Consult portfolio holdings and account details, with access to position information and related instruments.

WORK THE WAY YOU PREFER

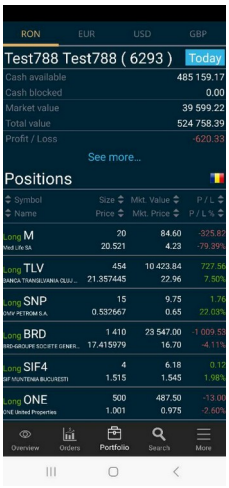

Select profiles, customize the display, choose language and theme, and adjust market depth presentation.

Designed for connected investors and trading clients

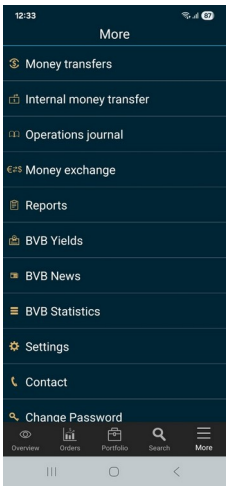

A CONNECTED MOBILE TRADING EXPERIENCE

From market insight to account action.

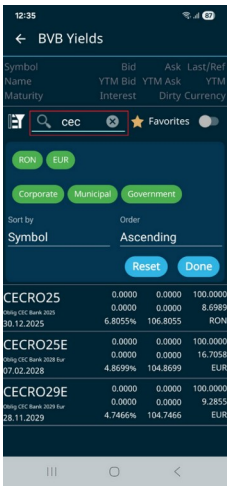

PREDATOR Mobile brings essential market, transaction and account workflows together in one interface, with access tailored to each user's permissions.

PORTFOLIO

ACCOUNT SERVICES

BVB BOND YIELDS

More than a trading screen

CLIENT ACCOUNT SERVICES

Initiate deposit and withdrawal requests; access operations history and request negotiated-rate currency exchange, subject to approval workflows.

BVB MARKET INTELLIGENCE

View BVB indices, market statistics, Top 10 instruments, ticker activity and bond yields, with filtering and search.

REPORTING ON DEMAND

Generate portfolio and transaction reports in PDF or Excel formats directly from the mobile application.

FLEXIBLE ACCESS

Support trading or read-only permissions by market or data flow, including authorized access to multiple client accounts.

Access designed with control in mind

The platform supports two-factor authentication, optional device biometrics, configurable inactivity handling and confirmation steps for trading operations. Access is managed through the PREDATOR / TiWEB environment and user entitlements.

Bring PREDATOR closer to your clients.
