TELEINVEST

PREDATOR WEB

Your trading platform. In your browser.

Deliver a complete online trading experience to your clients—market intelligence, order execution and portfolio visibility through a desktop or laptop web browser.

Markets, insight and execution in one workspace

Move from customizable market overviews and instrument search to market depth, price history and trading workflows, with key information available in a unified browser interface.

MARKETS AT A GLANCE

Monitor instrument prices, indices, market activity and predefined or personalized overview profiles.

GO DEEPER INTO DATA

Explore market depth and interactive price charts with selectable historical periods.

TRADE WITH CONTROL

Submit buy and sell orders, track active and inactive orders, and modify or cancel eligible orders.

CONFIGURE YOUR VIEW

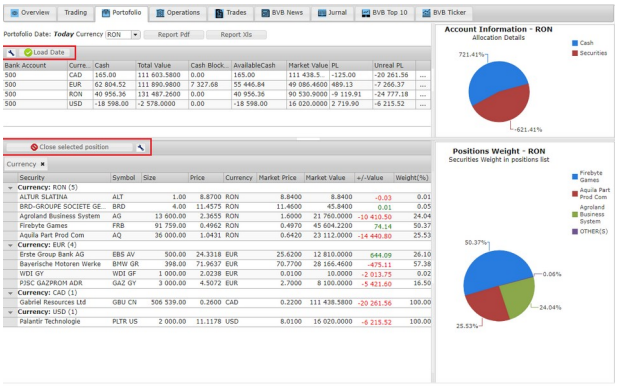

Customize visible columns, interface themes and language to suit individual workflows.

BUILT FOR ONLINE INVESTORS AND BROKERAGE CLIENTS

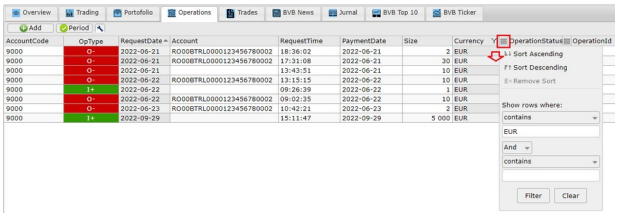

A CONNECTED WEB TRADING EXPERIENCE

From investment decisions to account services.

PREDATOR WEB extends beyond order entry, giving authorized clients a practical overview of holdings, executed trades, account operations and market information.

PORTFOLIO ANALYSIS

TRADE & ACCOUNT ACTIVITY

PORTFOLIO VISIBILITY

Review holdings and positions, including portfolio allocation by country, currency, sector and asset class.

REPORTS WHEN NEEDED

Generate portfolio and transaction reports in PDF or XLS formats.

CLIENT OPERATIONS

Request deposits or withdrawals, review operations and access negotiated-rate currency exchange workflows.

MARKET INTELLIGENCE

Follow BVB market news, Top 10 statistics, ticker activity and bond yield information.

Access designed with control in mind

Client-specific trading and read-only permissions, configurable two-factor authentication, account switching for authorized users, order confirmations and inactivity-based disconnection help align online access with institutional controls.
